EXPERIENCE

● SENIOR FRONTEND DEVELOPER 2020

Over 5 years at GameAddik, I contributed to both frontend development and design within a collaborative team environment, while leveraging SEO analytics to improve performance and user engagement.

- Frontend Development: Built and maintained scalable applications using Vue, Nuxt, TailwindCSS, Vite, and Node.js.
- UI/UX & Design: Designed and implemented intuitive interfaces across web and mobile platforms.
- Architecture: Developed reusable components and modular systems for scalable development.
- Collaboration: Translated business needs into functional solutions and worked closely with backend teams for seamless integration.
- Performance & Quality: Optimized performance (SEO, speed), conducted code reviews, and maintained high development standards.

● GRAPHIC DESIGN 2019

Worked as a freelance graphic designer for clients in Tunisia and Canada, gaining experience across diverse industries and cultural approaches to design.

- Branding & Identity: Designed logos and visual identities for a wide range of clients.
- Print & Digital: Produced marketing materials including posters, brochures, packaging, and promotional assets.
- UI/UX & Mockups: Created visual concepts and mockups to support digital product development.

ABOUT ME

Frontend developer with 5 years of experience at GameAddik, combining strong technical expertise with a sharp eye for design. I specialize in building high-performance, visually engaging web experiences, bridging the gap between development and UI/UX.

Experienced with modern frameworks, CMS platforms like WordPress and Webflow, and SEO optimization, I focus on delivering scalable, efficient, and user-centered solutions.
